

Trainer's Toolkit

The *Puberty: The Wonder Years* Trainer's Toolkit is a comprehensive set of materials to support professional development facilitators in delivering a one-day training workshop for educators to equip them to effectively deliver the *Puberty: The Wonder Years* curriculum to their students.

The Curriculum

Puberty: The Wonder Years focuses on two main goals:

1. Promoting appreciation and respect for the amazing changes experienced by self and others
2. Equipping young people to postpone sexual intercourse

Puberty: The Wonder Years 2015 includes curriculum for three consecutive years for 4th, 5th, and 6th grade students. The lessons are teacher friendly and youth engaging. Teachers are provided with many resources needed to implement the lessons, including family engagement resources, student worksheets, assessment tools, and full-color, animated slides. Now in its 3rd **Printing**, the curriculum is less binary and more inclusive. "Sex Education in Elementary Schools: Coed or Gender Segregated?" has been added as an appendix to encourage coed instruction. Where marriage is mentioned, it is stated as one of several reasons to postpone parenthood or sexual activity.
