Important Updates & News

promoting appreciation and respect

Puberty: The Wonder Years continues to update and improve. Look at all the ways it is supporting educators in equipping students for a positive puberty experience.

Inclusivity:

Puberty: The Wonder Years is now in its 3rd printing! While the lessons are the same, the 3rd printing includes the following changes to make the curriculum more inclusive of all students:

- Language has been reworded to be less binary and more inclusive. For example, "he or she" has been changed to "them." The words "boys" and "girls" have been replaced with "people with male bodies" and "people with female bodies" wherever it makes sense. "Sex roles" has been changed to "gender roles" wherever appropriate.
- Student practice scenarios have been added to illustrate use of skills in less binary situations.
- "Sex Education in Elementary Schools: Coed or Gender Segregated?" has been added as Appendix H to encourage coed instruction.
- PowerPoint slides, student worksheets, Family Resource Flyers, and appendices have also been updated to be more inclusive.
- Where marriage is mentioned, it is stated as one of several reasons to postpone parenthood or sexual activity.

Free Preview Curriculum:

The *Puberty: The Wonder Years* now offers a free, 30-day preview. Schools and agencies may complete the <u>Preview Request Form</u> and have curriculum shipped to them so their staff, review team, or Sex Education Advisory Board can look at the lessons and teacher resources.
